

Local ties to the Dreamliner

Hamilton Sundstrand is building nine of the Boeing 787 Dreamliner's systems, more than any other contractor: six electrical generators and the redundant power grid that will run the air-conditioning compressors, de-ice the wings and even flush the toilets.

BOEING 787-9

Passengers: 250 to 290
Range: 9,200 to 9,780 miles

Wingspan:
203 feet

Source: Boeing Co.
