

Where sales are coming from

Chrysler is making a concerted effort to be more of a global car company, and the products made in Belvidere are key to its worldwide plans. The company used the Caliber to introduce the Dodge brand outside North America, and the Compass and Patriot are good fits internationally because they fit smaller roads better than minivans or larger SUVs. Chrysler provided total sales of each model in the various markets it tracks:

	Caliber	Compass	Patriot
U.S.			
1Q '08	31,331	10,400	17,248
1Q '07	27,206	11,838	2,928
